

Copy structure / level

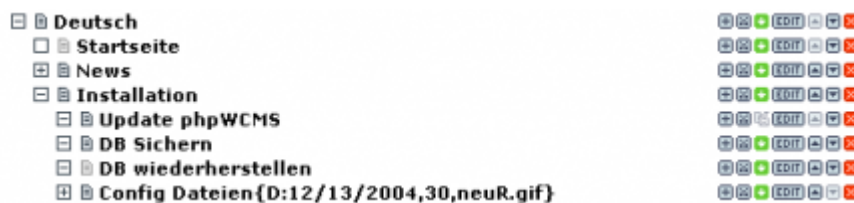

Follow these steps to copy and paste a category:

In the site structure overview, click
to choose the category to be copied.

Click
again to cancel the process.

will now appear to indicate where you can paste the category/structure. Click  to paste the entire category, including any sub categories and articles, at a new location. Note: **The aliases for the categories will not be copied over.** Finalise the process by clicking  beside the originally for copying selected category.
